

## IMMEDIATE COST SAVINGS. REALIZED.

### ABOUT US

At GreenWare, we believe that putting our customers first and implementing solutions that have a positive impact on their budget and our global environment will always result in a base of raving fan customers. With over 150 years of combined experience in software, hardware, services and training, our experienced team of sales and technical professionals is making this a reality.

Our solutions give us the unique ability to offer an Enterprise Document Hub, handling all your document needs from design, generation, delivery, workflow, storage and retrieval. Our solutions for PC Virtualization and Print Cost Management provide significant reductions in operational costs and typically an ROI in less than 6 months.

### OUR SOLUTIONS

**Print Cost Savings & Printer Management** – Our unique patent-pending software reduces ink and toner usage enabling savings of up to 50% on consumables. This unique solution also allows us to track every print job, enforce print policies, provide a complete print audit trail and print cost analysis.

**PC Virtualization** - Software that turns one Windows-based PC into up to 6 individual workstations using standard hardware with no degradation in performance. It **isn't a dream, it is reality and it is savings organizations hundreds of thousands of dollars on desktop hardware expenditures.**

**Enterprise Document Hub (EDH)** - Our document solutions allow you to graphically design and control the entire document flow of your business. This includes composition, generation, delivery, workflow, collaboration and document management. EDH gets you and your customers the right information in the right channel at the right moment and is being used in insurance, banking, manufacturing, distribution and government.

**Advanced eForms** – Create a rich, intelligent online forms experience, increasing user satisfaction. Many organizations are achieving significant cost savings replacing manual processes with online forms and documents. Our eForm solutions can provide a rapid return on investment, reduce operational costs, improve productivity and reduce errors.

### OUR SERVICES

- Installation
- Training
- Consulting Services
- Implementation
- Support
- Certification

### WHAT THEY ARE SAYING

**"I am confident that we have made the right choice in going with Scriptura. The software can just about handle anything, including the processing of large volumes and intelligent eForms for issuing policies over the Internet. It is this very combination that makes Scriptura eminently suited for our group."**

Greg Ricker  
IT Director  
Strickland Insurance Group

**"PretonSaver™ is a truly remarkable product. It runs quietly in the background, saves money, provides management information and is easy to install and maintain. Remarkable."**

Amir Levy  
Chief Technology Officer  
Harel Insurance Group

**"As a national bank...we are proud to increase business efficiency using Mini-Frame's multi-user solution. Thanks to SoftXpand, we are now poised to equip employees with more computers while significantly cutting down on IT costs, without compromising our network's technical capabilities."**

Marcellin Zahui  
Director
